Hi Kimi,

Thanks for taking part in our conference call today. I appreciate your efforts in shaping our Dewey-Burdock ESA consultation.

I checked for more cosmetic changes before attaching the latest version. With that said you may find even more! As we discussed today, please feel free to make any changes.

It may be best to "save as" with the same name adding perhaps the number 2 at the end – or whatever sounds good to you.

I look forward to your changes, and will gladly meet with you shortly thereafter to address and clarify some of the comments.
